End Up Here

Cher Lloyd

Boy i was watching you move sorta checking you out,
Loving what you do boy we ought to paint the town,
You can watch me get too it double roll and lean,
Make up your mind if you're liking what you see,
Don't want no flowers,
Don't buy me no gifts,
I need somebody who can take care of this,
I'm loving what you're doing cause i know you do it well,
You got your game tight real smart i can tell,
Please don't play that usual game the type to put out your flame.
{Chorus}
I-I-I I don't wanna shed a tear,
I-I-I I didn't want to end up here,
Could you give me that dust that you throw right round,
Get me that stuff make you want to get down,
I-I-I i didn't want to end up here.
Yeah i went through your phone i didn't like what i seen,
You promised you'd be true you made a fool out of me,
my friends tried to warn me i'd waste my time,
I saw your true colours almost lost my mind,

Looks like you do the same to all your other girls,
Except you brought her flowers,
And you brought me pearls,
When you're going out tonight i know you're seeing her again,
Saw your picture together so now you're kissing all your friend
I-I-I I didn't want to end up here,
Could you give me that dust that you throw right round,
Get me that stuff make you want to get down,
I-I-I i didn't want to end up here.
If i don't leave right now with my wounds still open,
Slipped right threw your hands now my heart is broken,
I'm moving on yeah yeah,
I'm moving on yeah yeah,
I'm moving on yeah yeah,
I'm moving on!
{Chorus}
I-I-I I don't wanna shed a tear,
I-I-I I didn't want to end up here,

Could you give me that dust that you throw right round,
Get me that stuff make you want to get down,
I-I-I i didn't want to end up here.
