

Love Is Forever

Ufo

(instrumental intro)

I don't want to settle down

Stop my heart and turn around

Rebel nature, just got to be free

I'm in the right place, right place to be Washers, dryers, dealers, and souls

Looking into the fire

Flat caps, whippets, lovers, and wives

Balanced out on the wire

And she said

Love is forever babe

Love is a tool

Servant for Jesus

A slave for a fool I look out through love's back door

I escape but not any more

Revelation help me see

I'm in the wrong place, the wrong place to be Washers dryers dealers and souls

Looking up to rise higher

Flat caps whippets lovers and wives

Balanced out on the wire And she said

Love is forever babe

Love is a tool

Servant for Jesus

Slave for a fool

Love is for worshipped

Love is a test

Love is a firebrand burnin'

A hole in her breast

Love is ...

(instrumental) Washers dryers dealers and souls

Looking into the fire

Flat caps, whippets, lovers and wives,

Balanced out on the wire

And she said

Love is forever babe

Love is a tool

Servant for Jesus

Slave for a fool

Love is for worship

Love is a test

Love is the firebrand burning
A hole in her breast
Love is a blossom
Love is a lie
She said be careful boy
This ain't no wild cherry pie
Love is forever, love is forever, love is forever (fade out immediately)
