

No One Cares

Outbreak

It's time to wake up and get it through your head
your games are coming to a fucking end
You think you're something other than a fake
but watching you pose is more than I can take
You'll die a nobody and that's fine with me
'cause you'll never understand or ever see
that you're a fucking lowlife and you're going nowhere
no one likes you and no one cares

It's time to wake up and get it through your head
your games are coming to a fucking end
You think you're something other than a fake
but watching you pose is more than I can take
You'll die a nobody and that's fine with me
'cause you'll never understand or ever see that you're a fucking lowlife and you're going nowhere, no one likes
you and no one fucking cares

lets go
Fuck, fuck, fuck you
no one likes you
no one cares
no one likes you
no one cares
no one likes you
no one cares
no one likes you
no one cares
