

Macaroni Song

[Corey Kilgannon](#)

I've got a hundred dollars in a song for you
I can make you macaroni we can eat it on the porch
I play you songs on a guitar I can't afford
I'd be with you for better I'd be with you for poor
Baby I, I really wanna take care of you
I know you didn't ask me to
Cause you've got everything you need
Tell me what's a bunch of money really gonna do
I love you under any roof and we'd have everything
You could have some diamonds and a mansion on a deed
Marry some lawyer with perfect hair & teeth
Honey I know you could do better mathematically
You could buy what makes you happy but you're happier with me
Cause baby I, I really wanna take care of you
I know you didn't ask me to
Cause you've got everything you need
Tell me what's a bunch of money really gonna do
I'd love you under any roof and we'd have everything
Baby I, I really wanna take care of you
I know you didn't ask me to
You've got everything you need
But tell me what's a bunch of money really gonna do
I'd love you under any roof and we'd have everything.
