She Loved

MiG

When she got up she said I'll see you in the morning
I didn't know my heart would break without a warning
But when you fall in love with madness
You sure to go insaneShe loved walkin' through the rain
And she loved the things we can't explain
She used to love to laugh for hours
Love to scream my name, she loved, she lovedI'm only holding on to testify the reason
I'm only looking down the changing of the seasons
May be some day when I surrender
I'll feel her againShe loved walkin' through the rain
And she loved the things we can't explain
She used to love to laugh for hours
Love to scream my name, she lovedIs the most believed
There was something there in me
She loved, she loved'Cause when you fall in love with madness
You sure to go insaneNow I love walkin' through the rain
And I love the things I can't explain
And now I love to laugh hours
I love to scream her name, I loveShe loved, she loved, she loved
She loved , she loved, she loved
