

# How Long Must I Wait

## Dr. Dog

I walk with you everywhere I go  
But it don't seem like you know  
I sang your praise like an old songbird  
But I don't suppose you heard

I climbed my voice to the top of my lungs  
But I'm standing on the tip of my tongue  
And all I see only looks the same  
The picture is the frame

Oh soul of mine, look out and see  
My time that is to be

I fight for you  
My love is war  
The battle of Baltimore  
I took you back then  
I'll take you down the road  
You're with me on my own

Oh soul of mine, look out and see  
My time that is to be

How long must I wait?
