Etc.

Snuff

I can feel you breathing down my neck
With every step I take
The voice to echo round my brain
To remind meHow to lose it all, open up a void, how to lose it all
Always there breathing down my neckAlways one step behind me
Always there to remind me
I'll feel your arms around me
I'll taste your blood inside meLose it all, open up a void, how to lose it all
Always there breathing down my neckAlways there to remind me
Always one step behind me
I'll feel your arms around me
I'll taste your blood inside meLose it all, open up a void, how to lose it all
Always there breathing down my neck
