Be Yourself

Brett Max

Facts
I am nerdy and I may get flirty if you bring me some agave and wine
Yeah, yeah, yeah
by 10:30 see me in my PJ's I get sleepy that's where I be friday night
Yeah, yeah, yeah
And I don't need to lie, got money on my mind
That's just who the fuck I am and woah, oh I ain't shy
I don't need to lie, I been up on my grind
Hands up to the sky one time, yeah

And I don't see why you be up in flames,
im just out here and I'm doing my thang, yeah yeah, yeah yeah
high school they all try to be the same
then they try to be different cuz things change

don't be afraid just be yourself, nobody can you do it like you, Just be happy you have every right to
don't be afraid just be yourself, they see it from birds eye view, you'll reach heights that they could never fly to
No need to be nobody else, no No need to be nobody else, no
No need to be nobody else, no you should be happy with yourself, yeah yeah

And I don't need to lie, got money on my mind
That's just who the fuck I am and woah, oh I ain't shy
I don't need to lie, I been up on my grind
Hands up to the sky one time, yeah

Oh, oh woah oh woah oh oh
oh woah oh oh oh oh

See i'm just being happy
Those who aren't well they can get a little nasty
Keep it classy as they try to drag me down
See I be making cake like paddy
all up in a taxi
kick it in the backseat
never let another motherfucker come catch me, no

And I don't see why you be up in flames,
im just out here and I'm doing my own thang, yeah yeah, yeah yeah
high school they all try to be the same

then they try to be different cuz things change

don't be afraid just be yourself, nobody can you do it like you, Just be happy you have every right to
don't be afraid just be yourself, they see it from birds eye view, you'll reach heights that they could never fly to
No need to be nobody else, no No need to be nobody else, no
No need to be nobody else, no you should be happy with yourself, yeah yeah

And I don't need to lie, got money on my mind
That's just who the fuck I am and woah, oh I ain't shy
I don't need to lie, I been up on my grind
Hands up to the sky one time, yeah

Oh, oh woah oh woah oh oh
oh woah oh oh oh oh
