Nothing Is Permanent (Samba)

Brave Combo

Nothing is permanent
Nothing will last forever
Nothing is permanentRain falls and turns to mud
And then it dries and blows away, away
Grass grows in yards of green
And then it gets too tall and causes worryNeed leads to satsified
Which doesn't last so long and well
You knowAll things, always change
And change is fast if it's not slowNothing is permanent
Nothing will last forever
Nothing is permanentWhere was the neighborhood
Before they marked off all the streets and roads
Who came to live here first
And does it really matter
I don't think so
New stores of new design
Look old and dated long before they fall
Buildings of any sort are just lean-tos and that's allNothing is permanent
Nothing will last forever
Nothing is permanent
