

# **Lights Out**

## **Antimatter**

[Patterson]So you made it? Shame you had to fake it..  
So you feigned the way? You're a fucking disgrace to the name..So you reaped what I had sown?  
Scattered ashed blown into the unknown,  
While you were selling my soul, cold..Black lies failing... forging sound..  
Lights out as you hit the ground.
