

Gold Sounds

Nada Surf

Stay up
children of the world
theirs no strenghs
in hiding
that's what they do
they never showed
they always found somebody
who payed their billstay up
show your face
say that you know
have mercy
show that their is no war in love
love is only love
and never hurt
if it hurts
it hate love is the motor of life
who shall that motor hurt?have mercy
show up
be strong
show you face
show them that you children know
that you know
that your parents are able to sell even
their children
and rape the young girls
with their bloody money in handshow up
be strong
no war
all mercy
theirs an example
look to east germanythey showed up
trusted their brothers and sisters from the
that came over to steal their country
the brothers and sisters the trusted them
stole that country
that become free without one
bulletjust silent showing
that they don't agree
that they know about all crime

and that they will have mercy show them your love
I know you children have that I know
show up
show them your love
if they touch one of you
they proof that I'm right
they proof ho they are
show up
their nothing else
show your love
you're the best generation ever
don't hide
they are and were always cowerds
I know and you too
show love
show love
have mercy
