Come with Me

ceo

Look, you don't have to take this
You can come with meNa na na, na na na (oh yeah)
(Yeah) na na na, na na na na (ooh ah ooh)So hard to believe she left you alone, all alone
I know babe you can come with me though
So hard to be strong cause she left you alone, all alone
I know babe you can come with me though
(I know) I know your alone, you can come with me though
(I know) I know you feel pain, you can come with me though
(I know) I know you feel hurt, you can come with me though
(It won't) it wouldn't the same if you come with me thoughI just wouldn't believe, believe it baby
She would go and treat you that way
Especially after all the craziness you took
It just ain't necessary
I feel the tears that you cry at night
Cause I know what love is suppose to be like
Every little kiss and hug that she put aside
Baby, if you want to I can make it rightSo hard to believe she left you alone, all alone
I know baby, you can come with me though (come with me)
So hard to be stong cause she left you alone, all alone
I know baby you can come with me though
(I know) I know your alone, you can come with me though (ooh)
(I know) I know you feel pain, you can come with me though
(I know) I know you feel hurt, you can come with me though
(It won't) it wouldn't the same if you come with me thoughNa na na'sNever could find the words to tell you, babe
How I felt so deep inside
Didn't want to be to bold
Didn't want to hate on your girl but know I
Can't let you know what's wrong, what you're goin' through
You deserve the same love as seeing you
Given back a hundred though, baby I would do
Show your love you never seen or never knownSo hard to believe she left you alone, all alone
I know baby, you can come with me though
So hard to be stong cause she left you alone, all alone
I know baby you can come with me though
(I know) I know your alone, you can come with me though
(I know) I know you feel pain, you can come with me though
(I know) I know you feel hurt, you can come with me though
(It won't) it wouldn't the same if you come with me thoughIt won't be the same

If you come with me (if you come with me)
If you come with me (if you come with me)
If you come with me (if you come with me)
You won't feel no pain
If you come with me (if you come with me)
If you come with me (if you come with me)
If you come with me (if you come with me)So hard to believe she left you alone, all alone
I know baby, you can come with me though
So hard to be stong cause she left you alone, all alone
I know baby you can come with me though
(I know) I know your alone, you can come with me though
(I know) I know you feel pain, you can come with me though
(I know) I know you feel hurt, you can come with me though
(It won't) it wouldn't the same if you come with me though (oh yeah)So hard to believe she left you alone, all alone
I know baby, you can come with me though
So hard to be stong cause she left you alone, all alone
I know baby you can come with me though
(I know) I know your alone, you can come with me though
(I know) I know you feel pain, you can come with me though
(I know) I know you feel hurt, you can come with me though
(It wouldn't) it wouldn't the same if you come with me though (yeah)So hard to believe she left you alone, all alone
I know baby, you can come with me though
So hard to be stong cause she left you alone, all alone
I know baby you can come with me though
(I know) I know your alone, you can come with me though
(I know) I know you feel pain, you can come with me though
(I know) I know you feel hurt, you can come with me though
(It won't) it wouldn't the same if you come with me though
