Every Moment

Dead Times

Every moment that you're here
I feel ashes on my ear
Subtle difference disappears
I used to think about you and me forever
Improper medicine for you and me together
Do you wanna shoulder this weather?
I'm inspired by the things that upset her
You're no measure
Every Mormon, every saint
Let out the ashes of proof of faith

A million fallen in a million ways
I used to think about you and me forever
Improper medicine for you and me together
Do you wanna do this forever?
I'm inspired by the things that upset her
Is a man a measure?
Every moment
Every moment
Every moment
Every moment
