The Price Of One

Rupaul

writers: RuPaul/ Tom Trujillo/Jimmy HarryBoy, I know you want some of this good lovin tonight
I look good taste so sweet , from my head down to my feet.
If you liking what you see and you wanna get wit me.
You should know (something you should know)
Before we can proceed
There's more than what 'cha see
Catch my flowMore woman than you'll ever need
I'll get it right until the job gets done
More man than you'll ever be
You'll get two lovers for the price of oneI can tell you still want me by the look in your eyes
Going home with me even though you know the "tee"
Satisfaction guaranteed to fulfill your fantasies
Say you got twenty -three, I think we better leaveYou're the kinda man I like, some men are so up tight and they lie
When I know they wanna get freaky
Don't want they're friends to see
Them hookin' up wit me, so they creepDon't give a damn what people think of me
I am what I am
There's so much more to me
Than what they can see
