Simply Yours

Jennifer Hanson

You're not one to lose your cool
Almost nothin' rattles you
Oh, but it comes to love
Boy, you think too muchWhen those little doubts arise
You over analyze
Don't know why you wanna complicate if for
'Cause baby, I'm simply yoursNothin' to explain
It's as natural as the way
I smile when you walk in the room
It's the heart not the mindAnd I don't think you'll find
A scientific answer to soonI guess it's just like a man
To find some logic if he can
Well, I could try to make it into more
But baby, I'm simply yoursNothin' to explain
It's as natural as the way
I smile when you walk in the room
It's the heart not the mindAnd I don't think you'll find
A scientific answer to soonYou're not one to lose your cool
Almost nothin' rattles you
'Cause baby, I'm simply yours
