

Light It Up

[Dierks Bentley](#)

When it's low beams long stretch of highway
When the lonesome hits like a tidal wave
Tossin' and turnin', tangled with my demons
Makin' me doubt everything I believe in
There you are
Like a stained glass Sunday morning, babyCHORUS:
You light it up
Shine some faith on my darkest places
Like a rising sun
Fill my heart with a million amazing graces
Your voice is like a choir
A match that starts a fire
Deep down in my bones
Where only you can go
When my soul needs an angel's touch
You light it upI used to get numb on a whiskey remedy
But then your spirit poured in like a symphony
And now I know that all I need is you girl
'Cause when I get lost in this crazy worldREPEAT CHORUSThere you are
Like a stained glass Sunday morning
You bend the dark
With all your truth and all your gloryREPEAT CHORUS
