

I Could Be Your Girl

Chic Gamine

I could your girl or I could just be your best friend
If you pick a side then we might find a happy end
I could be more than this

More than just a little kissOnce you pick a side then we might find a happy end
I could see you thinking maybe we're an accident
I watch you all the time but you keep playing hard to get
If you give me just one night
Just a little of your time

Then you wouldn't hide your heart from what you don't know yetI could be your girl
I could be your girl
And people say that I should stay away from you
They feed me lies when I know it isn't true

Well I see those signs those signs that you keep sending meYa you turn your back but I know we're meant to be
Stop acting as if you don't know
Im never gonna let you go
We can be more than this
I know that we're more than thisAhhhhh
Ahhhhh
I could be your girl
I could be your girl Ooohhh
I could be your girl
I could be your girl OoohhhIf you give me just one night
Just a little of your time
If you give me just one night
Just a little of your time
I could be your girl
I could be your girl
Ohhh
