

To Be Free

[Matt Goss](#)

Strangers that care, a state of grace and cleaner air
To start these are three things I dont ever want to be without
And hate, nameless graves, the same mistakes, one hungry face
More things that this world just doesnt need Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, want, want, want, want, to be free
And hope for, one love, one life Push the strong, hold the weak, I always love freedom of speech
These are just things that should just be
The truth be told, lack of soul, the hand of Maradonas Goal
Is nothing, but it still glows Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, want, want,
Yeah I want, want, want, to be free
And hope for, one love, one life I think its cool to be kind, say good morning please and good night
Cause my space is your space and your space is mine Yeah I want, (to, to, to) to be free, and hope for, one life
one love
Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, (to, to, to) to be free, and hope for, one life one love
Yeah I want, want, want,
Yeah I want, want, want, to be free
And hope for, one love, one life One love, one life, freedom for this beautiful world that were living in One love,
one life, and some love for this beautiful world that were living in Peace for the World, we need peace for the
World
Peace for the World, we need peace for the World
Peace for the World, we need peace for the World
Peace for the World, we need peace for the World
Peace for the World, we need peace for the World
Peace for the World, we need peace for the World
Peace for the World, we need peace for the World
Peace for the World, we need peace for the World
