

# Fall Around

## Smoke & Jackal

If you go, you make a big fall  
I want you drunk, and now we're off

Fall around the world with you  
I wanna fall around the world with you

I call ya up, you let me down  
It feels enough, when you're around

Fall around the world with you  
I wanna fall around the world with you

I can't be this old baby  
You keep makin' me feel older  
Never go i'll go ???  
I just want you to take me under  
I can feel it takin' me under  
I can feel it takin' me under

Fall around the world with you  
I wanna fall around the world with you x4
