

# Dolphins

## Simple Minds

Say that, say its wise  
They say that, it's the only time  
To reach for what remains  
To look over whats the same Dolphins swim around  
I'm dolphin, drag me down  
Drag me down Say that, its the truth  
Theres an ocean, right in front of you  
Dolphins hit the sound  
And when dolphins circle around And if it seems so  
Like the world juts in  
Those dolphins drag me down  
Drag me down Say that, say it's wise  
They say that, its the only vice  
Yet, you say so what remains?  
And look so uncertain And dolphins look around  
And then dolphins drag me down  
Drag me down It looks through  
The world juts in  
'Cause dolphins drag me down  
Drag me down
