

World to Me

Huey Lewis & The News

Bars of gold, shiny diamonds
And all the pearls in the deep blue sea
They could never equal what you mean to me
And all the rings on all the fingers
Of all the Kings and Queens
They won't reveal, how I feel 'Cause you are there when I need you
And you are there in the morning when the sun comes up
And you are there in the evening
And you are there when I slip up
You'll be there in the winter time
You'll be there and be true
From now on, I'll be there for you 'Cause you, you mean the world, you mean the world to me
You mean the world, you mean the world to me
And I want you and all the world to see
You mean the world to me
And all the cold in Alaska
And all the music down in Tennessee
All the tea in China, can't take you from me
The highest mountains, the greenest valleys
And all the stars above
They can't replace, my favorite face 'Cause you were there through the hard times
And you were there when I was ready to give up
And you were there when there was no one else
And you were there when I messed up
You'll be there in the long run
You'll be there and be true
From now on, well, I'll be there for you 'Cause you, you mean the world, you mean the world to me
You mean the world, you mean the world to me
And I want you and all the world to see
You mean the world, you mean the world
You'll be there in the winter time
You'll be there and be true
From now on, well, I'll be there for you 'Cause you, you mean the world, you mean the world to me
You mean the world, you mean the world to me
And I want you and all the world to see
You mean the world, you mean the world to me
You mean the world, you mean the world
