Marlboro Man

Blink 182

Well this one day
My mind is strained
I, can I, can I, can have funBut no matter what I do
I how much I just sip
I can't go on just sucking my thumbThrowing away my toys
Resting at my door
After thinking that I couldn't read
Sitting on the porch
And waiting for the porno
While sucking on my nicotineI don't know why
I just want to die
And here's 2 bucks for you
If I take the carton I should really fart
But I guess its a lot more healthier tooI don't know why
I just want to die
And here's 2 bucks for you
If I take the carton I should really fart
But I guess its a lot more healthier tooBlack dog grandma latex paved
All in violence today
I Guess I should, listen to what the doc saysMy breath
Is how the streets get paved
Every dayOh how the wind blows
Slow and soft as is slides through my nose
But thats not enough
Its never enough till I cough aloneBlack dog grandma latex paved
All in violence today
I Guess I should, listen to what the doc saysMy breathIs how the streets get paved
Every dayI Guess I should, listen to what the doc says
My breath
its how the streets get paved
Every day
