Bang

Saint Saviour

Let's go out with a bang
Steal a car, let the sirens sing
You keep your keys by your side
like you said, you're just here
for the ride
And you couldn't care less,
if you tried.Would you turn me in?
like a chime, leave my name to ring?
Well I couldn't care less if I tried.
I couldn't care less if I tried.Cos I know your pain, and I can take it away
I'm not the same
I'm special baby, yeah.Tongue tied and torn,
Spit it out, what you come here for?
Open house for the dead
Saw the signs, saw the light go red
but I couldn't care less if I tried,
I couldn't care less if I tried.
