Blue Lady

Hello Sailor

Iâ€™ll find myself a blue lady to help me through the night
Me and my blue lady will make this chance alright (alright)
Weâ€™ll go out dancing every club I know in town

If got to call the true blue lady or else she'll hit the streets
But you know my blue lady sheâ€™s like a cop on the beat
Beneath the lamp light sheâ€™s a vampire in the night

Blue, blue lady (blue lady, lady)
Blue, blue lady (oooh I need ya)

Sheâ€™s got to be a true lady, sheâ€™s vicious like a shark
Iâ€™m gonna need an exorcist to help me after dark
And when itâ€™s over, youâ€™ll be a creature of the night

Blue, blue lady (blue lady, lady)
Blue, blue lady (blue lady, lady)
