

Angels

Desert Noises

Play, Twenty-seven ways
To get outta town today
Fool around, how may
Got my shoulders straight anyway You make that hopeless feeling okay
I feel the weight of the world unchain Told, to be a certain way
To be alive is dying for change
You're alright, I lay
Got your shoulders straight anyway You make that hopeless feeling okay
I feel the weight of the world unchain
I could scream for angels, only catch the side of a ray
We could talk about it anyway You make those hopeless feeling okay
I feel the weight of the world unchain
I could scream for angels, only catch the side of a ray
We could talk about it anyway
