

# Best Friends

## Tom Hillock & David Krutten

Remember all the days  
We'd while the hours away  
We had a kingdom made of sand but didn't care  
Now I think of all the times we shared,  
And i wonder where you are and if you'll play  
Come knockin' at my door  
And i wonder will ours road cross someday  
been missed forever more,

Remembering our time  
What's yours was always mine  
Nothing but trouble but it led to so much fun  
We were wild ones always on the run  
And now I wonder where you are and if you'll play  
Come knockin' at my door  
And I wonder will our roads cross someday  
Best friends forever more,  
  
And now I wonder where you are and if you'll play  
Come knockin' at my door  
And I wonder will our roads cross someday  
Best friends forever more.
