

Japanese Girls

Robbers on High Street

Corruption

My lover is in America
I'll reach out with one hand
And keep one foot on the platform

Well I know what I want if I know I can get it
I take what I want, un-hun, if it's there
Well I know what I want if I know I can get it
I take what I want un-hun, if it's there

Believe me, you're going to leave me
When you hear the truth
Some things you do in the city:
Walk around in circles
Meet Japanese girls

Well I know what I want if I know I can get it
I take what I want, un-hun, if it's there
Well I know what I want if I know I can get it
I take what I want un-hun, if it's there

Well I know what I want if I know I can get it
I take what I want, un-hun, if it's there
Well I know what I want if I know I can get it
I take what I want un-hunh, if it's there

Yeah, un-hun, if it's there
Yeah, un-hun, if it's there
Yeah, un-hun, if it's there
Yeah, un-hun, if it's there
