

# Last One

## Pompeya

Alone with pain, I thought I'd made a friend  
Why do you leave now is this what you've planned  
Wait your turn it's a long time before you'll breathe  
Stay underwater and tell me are you free  
Cannot complain the pain will stay here for today  
It seems to stay  
Cannot complain the pain will stay  
Cannot complain I want to be there for you  
You can't seem to take this ride  
I want to be there for you now  
You're not a shoulder if I'm the one to lean  
As I see your red side when you always bleed  
World is a pea no it don't revolve around me  
If anything I revolve around the world  
Cannot complain the pain will stay here for today  
It seems to stay  
Cannot complain the pain will stay  
Cannot complain I cannot complain the pain will stay here for today  
It seems to stay  
Cannot complain the pain will stay  
Cannot complain I want to be there for you  
You can't seem to take this ride  
I want to be there for you now  
Cannot complain the pain will stay here for today  
It seems to stay  
Cannot complain the pain will stay  
Cannot complain I cannot complain the pain will stay here for today  
It seems to stay  
Cannot complain the pain will stay  
Cannot complain Cannot complain the pain will stay here for today  
Cannot complain the pain will stay here for today  
Cannot complain the pain will stay here for today
