

# Don't Stop

## Slightly Stoopid

When everytime I close my eyes and I see your face  
And I know aint a thing up in the world that will ever take your place  
When Im gone I just know that them things wont change  
Plus I know without you in my life that will never be the same And a rhythm you play or a drum that you feel  
My love for you well you know that its real  
All that she sayin and all that shell do,  
I know my love for her well I know that its true I dont stop, stop the way I feel, because I love you  
Lord I wont stop, stop the way I feel because I love you You got a smile that lights up my life and I wont let go  
I see the moon and the stars in your eyes and Im wantin you to know  
Its been some time youve been in my life since the day weve met  
I think of you and the times that weve had I will never forget And a rhythm you play or a drum that you feel  
My love for you well you know that its real  
All that she sayin and all that shell do,  
I know my love for her well I know that its true I dont stop, stop the way I feel, because I love you  
Lord I wont stop, stop the way I feel because I love you
