

If I Could Show Her My Heart

Arid Zone Avenues

There really was something
I was going to ask her
But when I saw her
my mind went blank I try to talk to her
but no sound ever comes out
When she's around me
my knees can't help but shake
I wish I could walk up to her
and have a conversation
But that is just
That's just out of the question I just got to tell her
tell her how I feel
I can't be so shy
if I'm gonna be her guy
If I could show her my heart
we would never be apart She is the only one
the only one for me
When I try and get near her
my heart just beats
faster and faster
