Heart Stop

Alex Young

Ohhh OhhhhhDoctor whats wrong with me
Why is my whole body tingling
I'm so afraid to go to sleep
I can't stop it from happening
I try to ignore it but it's like im asking for it
So tell me please can you heal it
Cuz every second I feel it[CHORUS]
Like when your close my heart beats slow
Like an overload, three seconds from losing control
Help me please, I'm fading fast
Don't know how much longer I'm gonna last
Can I find a way to breathe again
Cuz baby you make my heart stop
Can't feel my arms, Can't feel my legs
Don't know how much life that I have left
Your kiss will make me breathe again
Cuz boy you make my heart stopThis is an emergency doctor,
When can you come see me doctor
Will I need surgery doctor
Please give me what I need[CHORUS]
When your close my hearts beats slow
Like an overload, three seconds from losing control
Help me please I'm fading fast
Don't know how much longer I'm gonna last
Can I find a way to breathe again,
Cuz baby you make my heart stop
Can't feel my arms, Can't feel my legs
Don't know how much life that I have left
Your kiss will make me breathe again,
Cuz boy you make my heart stopWhen your close my heart beats slow
Like an overload, three seconds from losing control
Help me please, I'm fading fast
Don't know how much longer I'm gonna last
Can I find a way to breathe again
Cuz baby you make my heart stop
Can't feel my arms, Can't feel my legs
Don't know how much life that I have left
Your kiss will make me breathe again
Cuz boy you make my heart stopBaby you make it clear.
