

Waste My Time

[Alexz Johnson](#)

My friends are tellin' me I lost my mind
When I hooked up with you, maybe that's true
They say that I'll wake up one day
Askin' what did I do maybe that's true too But when I'm with you
Everything's alright
All I know is how I feel
When you're with me Waste my time, waste my time
Not so sure that I'll be yours
And, baby, you could be mine
It's all about hangin' out
'Cause you know how to waste my time Nothing like an empty day
With nowhere to be, you're right there with me
Laughin' as the world goes by
How we let it pass, movin' way too fast 'Cause when I'm with you
I don't really care
What they all want me to be
I just want you beside me Waste my time, waste my time
Not so sure that I'll be yours
And, baby, you could be mine
It's all about hangin' out
'Cause you know how to waste my time Call me Shay or the M I C
When you listenin' to me, you be listenin' to B bumpin'
To the rhythm that we give 'em where we hit them
With the beats on the streets, don't forget the way we livin', yo You, girl on the other side of the wall
(Waste my time)
I like the way you move your body and if you fall
(Waste my time)
I'll be the one that's gonna catch you before you hit the ground
(Not so sure that I'll be yours)
I'm feelin' your sound
(Baby, you could be mine) It's all about
(Yeah girl, it's all about)
Hangin' out
(You now we hang it out)
'Cause you know how to waste my time Waste my time
(Wasting my time)
Waste my time
(Yeah, yeah)
Not so sure that I'll be yours

But, baby, you could be mine
(You could be mine)It's all about
(Yeah girl, it's all about)
Hanging out
(We hanging out)
'Cause you know how to waste my time
(Wasting my time)
You know how to waste my time
