

# Taste the Poison

## Destroyer 666

Come in,sit down,Your knees on the ground  
Woman you hate,Woman you hate your inno-  
Sense its racing,pulse its pacing,Bite marks tracing  
track marks down your bleeding neckIs it your skin,your hips,your lips,your touch on my prick,  
Or the vision of cum on your lips?  
Exciting my flesh,Hot lust breath its waiting,  
Taste the poison Demoness!Woman,your sex is like a cult to me,  
Ritualistic Ecstasy!My teeth,I rip,your throat,I lick your pain,I suck  
In the heat of the wolflust fuck  
Suck me,break you,take you ,make me want you  
Woman ,Its what i want from you  
Feelin' it,Breathe it,I know you need it  
Its electric,Shock you,fuck you  
Is it your skin,your taste,your sex  
Your blood,your breast?,
