Synthetic

Trike

I can never feel the way you do
But it still becomes me now
I can't take the way you do
But it's still inside meSynthetic solution
Synthetic, I'll become
Synthetic, if it makes this go away
Synthetic solution
Synthetic, I'll become
Synthetic, if it makes this go awayStill I waste another day of my life
And it sickens me to feel this way
Now I can't make up my mind, is this right?
How I let you get inside of me?Twist my words the way that you do
'Cause it falls on deaf ears now
Still, I've learned to numb your views
But they're still inside meSynthetic solution
Synthetic, I'll become
Synthetic, if it makes this go away
Synthetic solution
Synthetic, I'll become
Synthetic, if it makes this go awayStill I waste another day of my life
And it sickens me to feel this way
Now I can't make up my mind, is this right?
How I let you get inside of me?I will never follow you
I will never follow you
I will never follow you
I will never follow youAll this time, I thought I was myself
And I thought, I never could become you
All this time, I thought I was myself
And I thought, I never could become you
Wrong, wrongStill I waste another day of my life
And it sickens me to feel this way
Now I can't make up my mind, is this right?
How I let you get inside of me?Still I waste another day of my life
And it sickens me to feel this way
Now I can't make up my mind, is this right?
How I let you get inside of me?I have become synthetic
I have become synthetic
I have become synthetic
I have become synthetic
