I Know It

Little River Band

I live alone, I'm little known
I'm mad about my lady and glad about the way she loves me
I go away but on the day, hate it to be leavin'
And want just to be seeing my lady
And when I come home she gives me a feelin' so fine
I'm still there locked in her mind and I know it, know it
She wants to be with me, I see it all in her eyes
Her feelings are hard to disguise and I know it
We talked about the world and wanted to share it someday
But never had the chance 'cause circumstance took us away
So many things on my mind left to say
So many nights and empty days
Now I live alone, I'm little known
I'm mad about my lady and sad about the way
I'm mad about my lady
And when I come home she gives me a feelin' so fine
I'm still there locked in her mind and I know it, know it
She wants to be with me, I see it all in her eyes
Her feelings are hard to disguise and I know it
