## **Touch**

## **Amy Grant**

There's a fire in the sky

The stars are burning

Like this passion tonight

Slowly stirringYou and I

A way we've never known

Now we're here alone You're the one in my life and

Nothing matters

More to me on this night than

Learning how do I love you

Til the morning light

Baby you and IHold me close

Fill me breathe

Touch my heart

Set it free and love will lead us

Lay me down

Lift me up

Feel the power

Every time we touchDon't we wait all our lives

For such a moment

Soul to soul, eye to eye

And all our colors run

Toward one

Til there's no dividing light

Between you and IHold me close

Fill me breathe

Touch my heart

Set it free and love will lead us

Lay me down Lift me up

Feel the power

Every time we touchHold onto water

Hold to the tide

Love is an ocean

Love washes over

For you and I

As we dream

On the sea of desireHold me close

Fill me breath

Touch my hear

Set me free and love will lead us

Lay me down
Lift me up
Feel the power
Every time we touchI have waited all my life
For this moment
For this moment
