Shoot Doris Day

Super Furry Animals

Shoot Doris Day, out of the way
In the pouring rain
Sentimentality pause as Jimmy Stewart ignores
Her questionPeople never stay the same
And it's a fight between the wild and tame
I've some feelings that I can't get through
Even to you my friend, wasting away in vain, oh, mercyVictor Panache, lost his mustache
In a P.R war
Public relationship tears, no one would touch him for years
You betchaPeople never stay the same
It's a fight between the wild and tame
I've some feelings that I can't get through
Even to you my friend, rushing around in vain, don't tempt mePeople never stay the same
It's a fight between the wild and tame
I've some feelings that I can't get through
But those feelings never bothered youPeople never stay the same
It's a fight between the strong and lame
I've some feelings that I can't get through
I'll just binge on Crack and TiramisuAnimals don't stay the same
It's a fight between the wild and tame
I've some feelings that I can't get through
Without turning to a military coup
