

Secret

Tarmac Adam

I won't tell anybody else
Your secret's safe with me
How you lost yourself
In places where you've been

Turn the lights out
I'll listen while you dream
Don't scream, don't shout
Just hold onto me

And let's be optimistic
Let's lie in bed 'til 3
Forget the sadistic
Thoughts that you keep

Don't you see
A little more than nothing
Will help us be
A little more than closer
And still be free
To think what you want to
And know it's me
Who listens intently

I won't tell anybody else
Your secret's safe with me
How you tried yourself
Tried to so hard to be

So optimistic
Let's try not to deceive
Beware of what's addictive
Your secret's safe

Don't you see
A little more than nothing
Will help us be
A little more than closer
And still be free
To think what you want to

And know it's me
Who listens intently
