A Little Too Not Over You

David Archuleta

It never crossed my mind at all
That's what I tell myself
What we had has come and gone
You're better off with someone elseIt's for the best I know it is but I see you
Sometimes I try to hide what I feel inside
And I turn around, you're with him now
I just can't figure it outTell me why you're so hard to forget
Don't remind me, I'm not over it
Tell me why I can't seem to face the truth
I'm just a little too not over you, not over youAren't memories supposed to fade?
What's wrong with my heart?
Shake it off, let it go
Didn't think it'd be this hardShould be strong, movin' on but I see you
Sometimes I try to hide what I feel inside
And I turn around, you're with him now
I just can't figure it outTell me why you're so hard to forget
Don't remind me, I'm not over it
Tell me why I can't seem to face the truth
I'm just a little too not over youMaybe I regret everything I said
No way to take it all back, yeah
Now I'm on my own, how I let you go
I'll never understand
I'll never understand!Tell me why you're so hard to forget
Don't remind me, I'm not over it
Tell me why I can't seem to face the truth
I'm just a little too not over youTell me why you're so hard to forget
Don't remind me, I'm not over it
Tell me why I can't seem to face the truth
And I really don't know what to do
I'm just a little too not over you, not over you
