

Seven Seas (I Am Loved)

Wildwood Music

Keep these feet steady
And these eyes on the road
For my doubts are many
And my fears, they swallow me whole

In the belly of the deep
Your spirit calls to me
"I'm not alone, and I never will be!"

Your love is like the seven seas
It's wide and deep with mystery
More than what I feel
More than what I see
Your love is chasing after me

Make this heart ready
To set out beyond the shore
Where your grace is heavy
God I need it more and more

It's where I'm meant to be
Your spirit helps me see
I'm not alone, and I never will be

Your love is like the seven seas
It's wide and deep with with mystery
More than what I feel
More than what I see
Your love is chasing after me
x2

I am loved
I am loved by you
x4
