

You Just Keep On

Wade Hayes

There you go, do you know
What you do to meWhen you move around the room
Like some sweet Melody, you move meSo we dance, while the Band
Plays a song or twoYou just keep on,
And I'm gonna have to Love YouYou just keep on turning me on baby
So easily, so gracefully
You're drivin me crazyOnce again, you've drawn me in
And my heart knows it's true.You just keep on
And I'm gonna have to love youHere you are, in my arms
Better watch your stepYou could cause a man to fall, and I
Don't need no help, your something elseHeaven knows, you are so close
What else can I doYou just keep on
And I'm gonna have to love you
