

# Warning

Nick Jonas

I, keep trynna to escape  
From this cage that I live in  
This prison in my head, oh I  
Own many mistakes  
From all the things, I never did  
I carry my defense Now I'm running for the fences on my own And I can see the warning  
Yeah I can see the warning, warning  
It's brighter than the morning, morning  
Keeps trying to turn me right around  
And it's all I ever wanted  
It's all I ever wanted, wanted  
I'm breaking the warning down, down I, I got something inside  
It keeps burning my body til it's sore  
Keeps wanting more and more oh and I  
I'm gonna find  
I'm gonna find what I had lost  
On the label what I was taught That I'm running for the fences on my own  
And I can see the warning  
Yeah I can see the warning, warning  
It's brighter than the morning, morning  
Keeps trying to turn me right around And it's all I ever wanted  
It's all I ever wanted, wanted  
I'm breaking the warning down, down I'm breaking the warning (I'm breaking the warning)  
I'm breaking the warning (I'm breaking the warning down) Now I'm running for the fences on my own  
And I can see the warning  
Yeah I can see the warning, warning  
It's brighter than the morning, morning  
Keeps trying to turn me right around And it's all I ever wanted  
It's all I ever wanted, wanted  
I'm breaking the warning down, down I'm breaking the warning  
(Warning and I can see the warning, warning)  
(It's brighter than the morning) I'm breaking the warning  
(Morning) keeps trying to turn me right around  
I'm breaking the warning yeah (and it's all I ever wanted)  
(It's all I ever wanted) (morning)  
I'm Breaking the warning down, down I'm breaking the warning down, down
