

Old Time Religion Country Style

Heritage Singers

It was in a country church where we heard the angels sing,
Though we didnâ€™t have a choir, we made the rafters ring.
Folks would walk a country mile just to hear the spoken word,
And lift their happy voices, singing praises to the Lord.

Chorus:

Give me that old time religion, done in country style.
Give me that old time religion and Iâ€™ll linger a while.
Just to hear hosannas ring, singing praises to the King,
Give me that old time religion, done in country style.

I can remember my mama and daddy kneeling there in prayer.
No matter how heavy the burden, they always left it there.
And we felt a little closer as we heard the spoken Word.
Then weâ€™d lift our happy voices, singing praises to the Lord.

Chorus
