So Well

Ugly Winner

20, 21, 22, 23, 24, 25, 26 still alive
It's dragging me under, don't think I'll recover
A stone in the water, a nail in my shoulder
Just put it together, you think you're so clever
Can we make it better, climb the mountain together?It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart
It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apartTwenty years older, the city gets colder
Still reaching for cover, we live and we suffer
Just put it together, if you think you're so clever
Can you make it better, pull the pieces together?It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart
It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart40, 41, 42, 43, 44, 45, 46, still alive
It's dragging me under, don't think I'll recover
But we'll make it better, climb the mountain togetherIt's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart
It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apartIt's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart
It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apartIt's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart
It's gonna break, gonna crack, gonna fall down and smash
Paralyze, oxidize, feel us drifting apart
Paralyze, oxidize, feel us drifting apart
