If That's the Way You Feel

Nazz

If that's the way you feel, don't change your mind
Be sure this time, I don't really mind
I don't really mindIf that's the way you feel, let this be gone
Decide it on what you really want
What you really wantI'm not going to plead so that no one is stopping you
Write when you get to where ever you're going to
I might have gone but I'm too much involved
To forget all my problems and think of them solved
I'm not in the habit of running my fears up a flagpole
And I'm less concerned of your secrets
Than about why you carry on so
If you want a little bit of attention
Why not make a spectacle of your self in publicOr maybe you could credit me with having
Enough understanding to merit a wire
Besides this is the end
And goodbye, it was real
But then
If that's the way you feel, let this be gone
Decide it on what you really want
What you really wantIf that's the way you feel
If that's the way you feel
If that's the way you feel
