Deepfreeze

Lillian Axe

Time and time again
I need reminding of where I've been
Helplessly scared, left so alone,
This time I'll make the journey on my own
Don't stop me now, s this begins
I feel a brave and new awakeningYet life goes on
But I'll be gone
A brand new life awaits me
The setting sun
Time has begun
I've settled down, so take myChorus:
Mind, Slipping in a deepfreeze
Blind, Living with an uneased mind,
Doing what I damn please time and again
Sin, looking at the shit that I'm in,
Smiling with a Cheshire cat grin,
Floating in a deepfreezeUpon your lap I rest my head,
I thank my lucky stars that I'm not dead yet,
The fields of green, the mountainsides,
I fly beyond them and there's a sea of sorrow,
Guide me to my rest
And in my deepfreeze I am possessed,But life goes on
Embrace the dawn
A brand new song awaits you
Control your fear
But keep it near
I'm melting down so take myChorus:
Mind, Slipping in a deepfreeze
Blind, Living with an uneased mind,
Doing what I damn please time and again
Sin, looking at the shit that I'm in,
Smiling with a Cheshire cat grin,
Ashamed of the places I've seen and been,
Mind, Slipping in a deepfreeze
Blind, Living in a deepfreezeTime to go away
Escape confusion and disarray
I found a peace, tranquility,
My newborn love, my secret mystery,
My soul lives on, beyond the skies,

My questions answered I say good-bye,But life goes on
Embrace the dawn
A brand new song awaits your mindChorus
