

Can't Slow Down

[Joe Satriani](#)

On the highway to your house
I see the signpost, I check it out
I can't slow down now to where you are
I feel like I'm flyin', here in my car I just can't slow down
Drivin' to the sound Tear the walls down
Tear them down
Feel the power
It's all around I just can't slow down
Drivin' to the sound
Never touch the ground
I just can't slow down Something's burnin' deep inside
My blood's on fire, my eyes are wild
I'm in my own world, I'm inside out
Lookin' for somethin', tell me what it's all about I just can't slow down
Drivin' to the sound
Never touch the ground
I just can't slow down
