

Chelsea Girl (4 Track Demo)

Ride

Take me for a ride away from the places I have known,
If I stay around I'll just remember I'm alone,
There's someone in my memory making me move on,
What was grey and hazy, is black and white now I have gone. Drive me up to London now it's got too dark to
see,
My waiting is over, there's no visitor for me.
Never let me talk to you, destroy the frozen past,
It's a different time now things are moving much too fast. Float by today, now it's turning to grey,
Raining my doubts let my thoughts slip away.
You must have something and what it is I don't know,
You must have something 'cause I can't let you go
