

# So-So Suicide

## Finger Eleven

I felt the blisters below the verse  
And the universe waiting to explode  
And I felt the words crawl out of my skull  
And now you know exactly what you showed  
Don't bother pretending  
I seem fine, I like that, I'm a mess  
I can't stand much longer in my head  
I think it's time for pulling this  
Became so-so suicidal  
And now I know the ugly form of kill  
Don't bother pretending  
I seem fine, I like that, I'm a mess  
I can't stand much longer in my head  
I think it's time for pulling this  
Don't bother pretending  
I seem fine, I'm trying to confess  
I can't stand much longer in my head  
But it's not time for pulling this  
You can't remember  
Don't bother pretending  
I seem fine, I like that, I'm a mess  
I can't stand much longer in my head  
I think it's time for pulling this  
Don't bother pretending  
I seem fine, I'm trying to confess  
I can't stand much longer in my head  
But it's not time for pulling this
