That's Alright

Laura Mvula

I will never be what you want and that's alright
Cause my skin ain't light and my body ain't tight
And that's alright
But if I might, I must stand and fight

I will never be what you want and that's alright
I play my own damn tune, I shine like the moon
And very soon, I'll soon fly over you
And what you gonna do when I fly over you

Tell me who made you the center of the universe
Who made you the center of the universe
Who made you the center of the universe
Who made you the center of the universe

And every morning when I wake up I pray for you
And then I pray for me that soon you'll see
How love can be, our love will set you free
And what it's gonna be, I see the beauty in your eyes

Tell me who made you the center of the universe
Who made you the center of the universe
Who made you the center of the universe
Who made you the center of the universe

I will never be what you want and that's alright
Cause my skin ain't light and my body ain't tight
I will never be what you want and that's alright
Cause my skin ain't light and that's alright

Tell me who made you the center of the universe
Who made you the center of the universe
Who made you the center of the universe
Who made you the center of the universe
